## GARMENT CARE INSTRUCTIONS

### **CARE LABEL:**

Cold Water Wash Separately

Delicate or Permanent Press Cycle

Use a mild detergent without fabric softener

Remove Promptly

Drip or Line Dry

Do Not Dry Clean or Iron

Specialty fabrics are more delicate due to their unique fabric content and may experience color transfer if proper care instructions are not followed.

These fabrics may have potential to fade or rub off with normal wear and tear, especially in high-contact areas.

Avoid contact with Aerosols (hairspray, deodorant), Glitter & Lotions.

**ALWAYS remove the garment promptly from the washer once the cycle is completed.**

- Leaving the garment in the washer for prolonged periods of time can cause the fabrics to bleed and/or leave unsightly wrinkles in the garment.

**DO NOT machine dry the uniform.**

- Once the uniform has been washed, immediately hang it up to dry.

**DO NOT dry clean the uniform.**

- Dry cleaning can yellow the uniform or leave an unsightly sheen. Dry cleaning also causes tackle twill lettering to fade, bubble, or stiffen.

**NEVER use fabric softeners**

- Fabric softeners block the soil release properties (Visa treatment) and can cause dirt and stains to resist removal.
